

IAESTE – recommended format for Covering Letter

Purpose: These are guidelines for a structure and content for covering letters to IAESTE Employers. They are recommended in order to standardise the content and quality of covering letters across IAESTE.

General things for student to think about:

- This is the only personalised part of your application, so, make it specific to the employer you are applying to.
- View the covering letter as an electronic interview. Remember that this is your opportunity to convince your supervisor that you are able to do the work and that you will be the best candidate – really sell yourself by highlighting your best experience/qualifications.
- Always check your spelling and grammar when you finish!
